Tuesday, unfortunately was wet for the first time, but, apart from one tennis match (which was, however, successfully played late in the after-noon) this did not affect the principal contest of the day — the Drinking Horn and the Tournament Ball, which began unofficially quite early in the evening, and for many people lasted, equally unofficially, until it was equally unofficially, until it was almost time to catch the express next morning

With the departure of that early train (and how early it is!) Tourna-ment was over once more and, apart from a casual reference in one of the papers later that week of the rareness with which one sees a man clad in dinner suit strolling down the street early in the morning down the street bat over his shoulder, Dunedin settled quickly back into her stride once more, and waited apprehensively for Capping.

Orgies at the Oval

Athletically speaking, Tournament was not an outstanding success for Auckland, for, although the team won three of the nine shields, they barely managed to keep second place ahead of C.U.C., who did not win one shield.

Otago, this year, were very strong although they carried off six trophies they were yet not invincible, and if it had been A.U.C. and not C.U.C. who filled the important minor placings, the final results could easily have been reversed. Congratulations,

Congratulations, however, to our Rowers, Basketballers and Tennis team, to our Drinking Horn team, who almost upset all predictions, and last, but not least to the two delegations, N.Z.U.S.A. and Tournament Commit-tee, who succeeded in keeping the name of A.U.C. well to the fore. Spare a thought for the two dele-gates who bore up well under the re-sponsibility of shepherding a team however, to our llers and Tennis

from one end of New Zealand to the other, and still managed to enjoy themselves—Senior Tournament Dele-gate Marion Solly, whose predictions for Tournament were so correct, and Junior Delegate Sondra ("I think I'm blushing!") Craig, whose predictions were not so far out either.

STOP PRESS . . .

ANY RESPONSIBILITIES AT ALL?

tial positions). In their place we welcome Maurice O'Brien, the new President of N.Z.U.S.A., Miss Audrey Coke, the new Secretary and Ken Philips, the new Sports Officer, and Messrs. Milne, Horsley and Fitzgib-bon, this year's Vice-Presidents. We Have we, as individuals, or as citizens, any rights or responsibilities to hold opinions on questions outside our own spheres of wish them every success in their new responsibilities and hope that under specialisation? This, surely, is one of the big questions facing us which must be answered during our pursuit of a liberal education, them N.Z.U.S.A. continues even more and which, it would seem, is wilfully ignored by the majority of us, to represent accurately the true voice especially those who hold any positions of responsibility in the of student opinion throughout New student world.

The meeting of the A.U.C.S.A. Executive immediately preced-ing Easter at which the delegation to N.Z.U.S.A. received instructions on how to vote when remits would be presented to the council meetings, saw another Students' Association Executive faced with Of the remaining business dealt a collection of remits typical of those that have come each year with on the three days that the counfrom Congress. As usual, they dealt with matters concerning not cil met, the most important was the only student organisations, but also New Zealand's foreign policy and her relationships with overseas powers, and, as usual, the of a recommendation in Mr. Horsley's executive treated them with extreme caution and handled them report as Sports Officer, N.Z.U.S.A. has now agreed to approach the Rugby Council with a compromise, with a compromise, the local executive because that is the compromise.

We are considering the local executive because that is the viz., that the Council still continue to viz., that the Council still continue to recent and nearest example, and not because it is in any way award Blues (with the Blues Panel most recent and nearest example, and not because it is in any way different from other corresponding bodies. On the contrary; their having the right to discuss any nombehaviour was only too typical of that of student executives throughout the country.

on merit and not necessarily on team representation. This was carried with Apart from one remit out of the 11, viz., one concerning N.Z. U.S.A. policy on increased bursary claims, the attitude of the majority of members was summed up by one who held that agreeing that, although the ultimate "N.Z.U.S.A. and College Executives were not the place to consider aim must be to place all N.Z.U. Blues Congress motions." but on the contrary ("I Congress motions," but, on the contrary, "they should go to a mise seemed necessary to break the reliable source for information." This, of course, raises the ques- existing deadlock. tion as to what is a reliable source, and whether once they had all the additional information, they would be in any better position to • Agreed to ask that students be pass judgment. But that is a digression and has no connection with given grades for each paper in examthe fundamental question being considered.

One must, of course, commend a person's recognition of his • One must, of course, commend a person's recognition of his • C.U.C.'s proposal to set up an not being in a position to formulate an authoritative opinion, but N.Z.U. Sports Council lapsed through such an attitude can be carried too far, and when it leads to a want of a seconder, and the matter is refusal to even discuss such fundamental questions as New Zea-now over to individual Colleges to consider Tournament Committee's proland's attitude to China and South Africa, let alone religious per- posal to amalgamate Easter and Winsecution and freedom of speech, one must surely regard it as bor- ter Tournament Committees into one dering on the fantastic.

The usual reply to such a statement is, of course, that individuals, as a whole, and students in particular, have nothing to do ther or not the Association existed, with formulating a country's policy, so what is the use of anyone the aims of the Newspapers' Association were approved. doing anything? They will, however, concede that policy is largely formulated by individuals-statesmen, or rather those at the head • of the country's governing body, and, furthermore, that they are ming tour of Australia and M O'Brien's expedition to N.U.A.U.S. there only because they have been elected by popular vote. If. then, leaders hold their positions because the people approve of them, they can also lose positions if the people disapprove of them

To accomplish any change in policy, however, a concerted only four weeks to the opening night, move would have to be forthcoming. That such a move is not so join the happy crowds at rehear-impossible was evidenced when the Police Offences Amendment sals now. What can you do Act was being considered. And if, at any time, the students decided that an injustice had indeed been done, from what better place could such a move come than from the National Student body of New Zealand.

This opportunity will be lost, however, by refusals to even discuss points of dissension, and under the present system a powerful voice makes no attempt to make itself heard on matters such as N.Z.'s attitude to recognition of China, or to the U.N. debate on South Africa, or to religious persecution in Eastern Europe. -P.W.B.

get in close who have died, is still making films to-day. All the direc-

from those who have died, is still making films to-day. All the direc-of house ors, with the exception of the late ean Wayictor Fleming, are still directing, ulthough some, like Frank Borzage elp you and Norman Taurog, have fallen into of the comparative obscurity in recent years. for deta Perhaps most surprising of all is the act that in 25 years only 15 differ-

ent directors have received the award, because a few have been able, through ability or luck, to monopolize the field. For example, John Ford has received it four times, Frank Capra three, and Frank Borzage, Lewis Milestone, Frank Lloyd, Leo McCarey, William Wyler and Joseph E. Mankiewicz have each won it twice.

The Academy Award is' not, of course, an infallible guide to the quality of a director. At the present time, the only really reliable, firstclass directors in Hollywood are William Wyler, John Huston and Elia Kazan.

William Wyler's record is more consistently high than any other director's in the whole world, since he has not had a single failure in the has not had a single failure in the last 18 years. His films in anti-chro-nological order are "Carrie," "Detec-tive Story," "The Heiress," "The Best Years of Our Lives," "The Memphis Belle" (a documentary), "Mrs. Mini-ver," "The Little Foxes" (perhaps his masterpiece), "The Letter," "The Westerner," "Wuthering Heights," "Jezebel," "Dead End," "We Three" (based on Lillian Hellman's "The Children's Hour"), "The Good Fairy," and some other earlier ones.

John Huston, son of the late Wal-John Huston, son of the late wal-ter Huston, the actor, was employed as script writer for Warner Bros. until 1941, after which he turned director. His films in anti-chronolo-gical order, are "Moulin Rouge," "The African Queen," "The Red Badge of Courage," "The Asphalt Jungle," "We Were Strangers," "Key "The African Queen," "The Red Badge of Courage," "The Asphalt Jungle," "We Were Strangers," "Key Largo," "The Treasure of Sierra Madre," "San Pietro" (a documen-tary), "Across the Pacific," "In This Our Life," and "The Maltese Falcon." Elia Kazan, who came from the New York theatre, where he still spends much of this time, has made the following films, "Viva Zapata," "A Street-car Named Desire," "Panic in the Streets," "Pinky," "Gentle-man's Agreement," "Boomerang," "Sea of Grass," and "A Tree Grows in Brooklyn."

Brooklyn." These three above-mentioned direc-

tors are the only ones in Hollywood whose every film is worth seeing—in fact should not be missed.

One cannot, however, afford to ignore the work of John Ford, whose total contribution of first-rate films over the last 20 years excels that of everyone else except William Wyler. Wyler. On the other hand he is an extremely uneven director—especially since the last war. While at one moment capable of creating a genuinely great film, at the next he may bring forth a

film, at the next he may bring forth a quite shoddy tasteless product. His really great reputation lies mainly in the films directed between 1939 and 1941 when he made "Stage-coach," "The Young Mr. Lincoln" (his own favourite), "Drums Along the Mohawk" (with Henry Fonda), "The Long Voyage Home," "The Grapes of Wrath," "Tobacco Road" and "How Green Was My Valley" No The Long Voya "The Long Wrath, "How Green Was My Valley." No and "How Green Was My Valley." No other director has ever made so many splendid films in so short a period. However, he was then working for Darryl F. Zanuck, one of Hollywood's most accomplished and enlightened producers. who almost invariably exerts a beneficial influence over the directors who work for him. In fact,

as soon as John Ford left Zanuck, and best post-war film and the last he made for Zanuck was "My Darling made for Zanuck was "My Darling Clementine"—an absolutely splendid Western. Some of his other, less suc-cessful post-war films have been "They Were Not Expendable," "Fort Apache," "The Fugitive," "The Three Godfathers," "Wagonmaster," "Rio Grande," "When Willie Comes March-ing Home" and three rather placeart Grande," "When Willie Comes March-ing Home" and three rather pleasant films, "She Wore a Yellow Ribbon," "What Price Glory," and "The Quiet Man." It will be observed that he is rather fond of using technicolor, a process which most other leading dir-ectors tend to avoid. John Ford is however, a master at handling it and the visual effects and composition of shots are always a most notable feature of his films. It is by no means unrewarding to

consider the important directors who have never won an "Oscar." The most notable omission is Charlie Chaplin, whose "City Lights" and "M. Vedoux" at least, were far more worthy of the award than the films which won it in their respective years. It is rather their respective years. It is rather ironical that the only cinema artist who is widely accredited with genius should never have received an "Oscar."

Another ironical omission is the Another ironical omission is the name of Orson Welles, who is the most original and, next to Chaplin, the most versatile artist in the Eng-lish-speaking cinema, His films, "Citizen Kane" 1941), and "The Mag-nificent Ambersons" 1942) are widely acknowledged as two of the greatest achievements in the bistow of world achievements in the history of world cinema. The only other films he has directed are "The Stranger," a first-rate thriller, "Lady from Shanghai," an extremely interesting and exciting film, his controversial "Macbeth" and the as yet unreleased version of tne as yet unreleased "Othello." version of

A director who has at times copied A director who has at times copied Orson Welles and has in turn been copied by him is the famous Alfred Hitchcock, who just missed the Aca-demy Award for "Rebecca" in 1940, and has never quite succeeded in cap-turing it since. Some of the more and has never quite succeeded in cap- day") or Bette Davis ("All About turing it since. Some of the more Eve") gave the year's best perform-interesting films he has made in ance. The N.Y. Critics gave their Hollywood are "Suspicion," "Life- award to Bette Davis, the "Oscar" boat," "Shadow of a Doubt," "Spell-bound," "Notorious," "Rope" and "Since the system as it stands is un-"Strangers on a Train." reliable, one might rather wonder if The awards for the best actors and it would not be a better idea to give netrocease usually course more contrast.

actresses usually cause more controv-ersv than any of the other awards, as is only to be expected in an industry which relies so consistently on star system. What tends to make voting for the acting awards has yet such a system are that it would des-been found. As things now stand, it troy the feeling of competition, as a sometimes happens that some of the result of which much of the interest voters have not seen all of the per-would be lost by the cinema public, formances nominated, although this and consequently it might have a dele-apparently does not prevent them terious effect on box-office returns. from casting their vote. Nevertheless, Hence it is unlikely that such a during recent years, their decisions method will ever be employed. have been reasonable, though proba-bly too much influenced by sentimen-tality. the matter even worse is the fact that

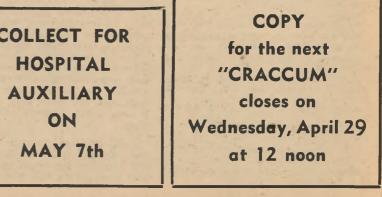

COLLECT FOR HOSPITAL AUXILIARY ON MAY 7th

The list of outstanding Hollywood became his own producer, the quality actors and actresses who have not of his work sharply deteriorated. The received awards is perhaps uncomactors and actresses who have not received awards is perhaps uncom-fortably large. A few of the most oovious omissions are the names of Greta Garbo, Agnes Moorehead, Pat-ricia Collinge, Dorothy McGuire, Mar-garet Sullivan, Charlie Chaplin, Orson Welles, Henry Fonda, Ralph Richard-son, Marlon Brando and Montgom-ery Clift, not to mention many others. However, in spite of the all too obvious fact that the academy awards are generally unfair and an unrelia-

are generally unfair and an unreliaable guide to the best in cinema, it nevertheless remains the most influential and respected honour of the industry. Moreover, there is no other critical organization in the cinema world which has any right whatever to claim that its decisions are superior. The New York critics, it is true, like to think that their annual awards are rather more wisely made, but actually one is no better than the other, since film critics can-not, any more than film fans, come to a satisfactory point of agreement. In 1951, the N.Y. Critics gave their award for the best film to "A Street-car Named Desire," while the Acaaward for the best film to "A Street-car Named Desire," while the Aca-demy gave the "Oscar" to "An Ame-rican in Paris," which would indicate that the N.Y. Critics were a much more intelligent organisation. On the other hand, in 1943, "Watch on the Rhine" received the N.Y. Critics' award, while the "Oscar" went to what was really a much better piece what was really a much better piece of cinema craft, "Casablanca."

Often too, the Academy Award is something of a reaction against the N.Y. Critics' Award, especially when N.Y. Critics' Award, especially there are two films of almost equal merit. In 1951 there was little to Flia Kazan's "A merit. In 1951 there was little to decide between Elia Kazan's "A Streetcar Named Desire" and George Stephens' "A Place in the Sun." The N.Y. Critics gave the director's award to Elia Kazan, so the Academy Award, feeling that Kazan had con-sequently received adequate acknow-ledgment, gave the director's "Oscar" to George Stephens Likewise in ledgment, gave the director's "Oscar" to George Stephens. Likewise in 1950, no one could really decide whether Judy Holliday ("Born Yester-day") or Bette Davis ("All About Eve") gave the year's best perform-ance. The N.Y. Critics gave their award to Bette Davis, the "Oscar" was won by Judy Holliday. Since the system as it stands is un-reliable. one might rather wonder if

awards to everything of really out-standing merit, so that during the same year more than one director and actor, etc., could receive an award if it were deserved, whereas in poor years, no director or actor, etc., would receive it. The arguments against

ATHLETICS

The Athletic contest this year was outstanding for the participation of the touring Australian Universities' Athletic team, who proved themselves, on the whole, much too good for any-thing N.Z.U. could offer and almost swept the field. Although they beat N.Z.U. so convincingly, they were yet the sception of Plummer, not one of them surpassed an N.Z.U. record, which indicates that their perform-ances were not really high, and that N.Z.U. athletics is at a pretty low ebb ebb.

ebb. The outstanding races were the duels between Australian V. J. Plum-mer and C.U.C.'s J. B. Parcell, who raced together all the way in the 880 (yards and one mile races, with Plum-mer proving victorious each time. Apart from Plummer, who broke the records for the one and three miles, the only other record broken was by Ken North (O.U.), who surpassed his own Pole Vault record and showed once more that he could be one of New Zealand's outstanding vaulters. New Zealand's outstanding vaulters.

BASKETBALL

Auckland won the women's basket-ball with five and a-half points; Otago with three was runner-up. It was not the best weather for basketwas not the best weather for basket-ball, with gusty winds, and on the first day some rain as well, so when our girls say they beat Otago, they mean it. Captaincy by N. Nicholls was extremely good, and with fine teamwork to back up the virtuosos, Auckland were able to take a 21 to 14 victory in the final For the last two victory in the final. For the last two years Auckland have been unlucky to years Auckland have been unlucky to be defeated by narrow margins of one and three points in the finals. However, this year they had a taste of the big time by beating Victoria 41-3 and Canterbury 30-7, before com-ing to grips with Otago.

N. Nicholls and V. Mossman, both National representatives, played bril-liantly, Nicholls' deft passing and ball control were a pleasure to watch and F. Spence earned her Blue for excellent defence-play. E. Barugh, F. Cotten and H. Hollows all turned on extra good performances for their first tournament. Auckland were un-lucky to lose Dickson, who hurt her hand on the first day. P. Williamson played outstandingly as centre. In the final match played, South

In the final match played, South defeated North by 14 points to 13, each side scoring alternately from nine-all; like the other games it was open play with some very fast moves. We had seven representatives in the team team.

Judging from tournament stand-ards, Varsity will be fielding one of the strongest teams yet in the Auck-land competition this year.

N.Z.U. TEAMS

Water Polo: G. Gardner (Captain). Cricket: B. Norman and J. Burton.

BOXING

"One in the eye for us."-Anon.

Although Auckland did not win a title some excellent bouts were fought. R. Caughey our finalist in the Light-Middle-Weight fought gallantly, although matched against a superior opponent, T. Lucas, of Can-terbury. The spectators warmly ap-plauded Caughey at the end of the bout.

Otago won the Boxing Challenge Shield from Victoria; all of the four Otago finalists won their bouts.

Light Welter-weight: M. Knuckey (O) (9st 8lb) beat F. Davis (A) (9st 12lb) on points. Welter-weight:

P. Diamond (O) beat F. Davis (A) by default.

Light-Middle-Weight: T. Lucas (C) (10st 10lb) beat R. Caughey (A) (10st 2lb) on points,

CRICKET

The cricketers got off to a flying The cricketers got off to a flying start to tournament with their match against V.U.C. on the way down. However, they did not fly very far, being beaten outright by Victoria. When the rest of the contingent caught up with them on the boat, they were claiming a first-innings win. This perplexed condition seemed to stay with them as they proceeded south, for just as they were getting into their stride against Canterbury in their second innings, it rained and into their stride against Canterbury in their second innings, it rained and play was abandoned. Burton (42) and Norman (33) had batted well in the first innings of this match and Mc-Leod (27 n.o.) was batting stylishly and with confidence in the second, when the rains came. Otago won the cricket compactition convincingly. cricket competition convincingly.

ROWING

Auckland rowers showed that they Auckland rowers showed that they can paddle their own canoes against any competition; that is, any that was available at Tournament. The course was very choppy and the events had to be postponed from Sat-urday morning till the afternoon when conditions improved somewhat.

Eights: The crew got off to a good start and had half a length lead on start and had half a length lead on Canterbury in the first quarter mile. Canterbury were pushing hard on the inside, however, so Auckland moved out to row in a tight position rating a steady 34. Shortly after, Otago and Canterbury contacted, and Auckland romped away to take the event by one length (with a good three inches of length, (with a good three inches of

third with ith 11 p Women's Singles: In the first round V. Teat was narrowly defeated in n's Back the third set by her Canterbury oppochamp title-hol nent, but R. Dickson won her match in straight sets, and likewise disposed D. Dows of her Otago opponent in the semike most trong fin final.

Men's Singles: Ellis had a tough A. Robinson, of V.U.C., 6-4, 9-7. He went on to meet Nicholson (Otago) in the final who had previously accoun-ted for the other Auckland representative player.

Women's Doubles: M. Solly and R. bickson lost their semi-final in three sets to an Otago pair; our other team, B. Johnstone and B. Waddell, had already been accounted for by V.U.C.

Men's Doubles: O'Neill and White were beaten by a Victoria pair, who were subsequently beaten by an Otago pair, who won the men's doubles.

Mixed Doubles: Miss Teat and Ellis allowed their first opponents to win only two games, but as already re-corded they let their last, in the finals, win too many games.

Drinking Horn

(Speshial Reporter)

TEA A. Peters (C) 1, T. Eagle (A) 2, Wilson (O) 3. Time, 74 3-5s. Fighting his way through the smoked atmosphere, your intrepid reporter, at great personal risk to life and limb, obtained an exclusive swal-low-to-swallow account of the last important Tournament contest.

As expected, in the preliminary rounds O.U., drinking well on their home ground, downed C.U.C., who were expected to be their toughest opponents. The time of 16.7s for the opponents. The time of 16.7s for the 6-man team was a good one, especially when compared to the 22s Auckland took to beat Massey, and the 22.8s in which Lincoln beat Victoria. In the second round Otago beat Lincoln, Victoria beat Massey, and Auckland astounded everyone by defeating Can-terbury in the very fast time of 16.3s. Otago, who had had the best time previously, pulled up their bibs, how-ever, and really surpassed themselves in the final to beat A.U.C. in the in-credible time of 14.9s!

By this time the atmosphere had

AN INNOCENT AT LARGE

One evening before Easter I toddled round to the Tudor Theatre at Remuera to see "Louisiana Story" and "Nanook of the North," two of Robert Flaherty's artistic films. Acclaimed by the critics and rejected by the public to the extent of lasting three days on Queen Street, these films are of great interest. Many of the audience left early, having apparently come to see torrid love scenes in the swamps. These films are documentaries of the first order. Made some years ago, "Nanook of the North" did not have the advantage of many modern techniques, but nevertheless gave a very interesting and at times amusing, picture of an Eskimo's year.

"Louisiana Story" shows the impact of an oil drill on a bayou in the swampy area of Louisiana. The photography is excellent and the scenes shown fully compensate for the lack of Betty Grable and Errol Flynn. It was an interesting commentary on the lack of appreciation of the film as an artistic medium to see the reaction of the general public. By far the most appreciative members of the audience were a large number of students.

The Tudor management is to be congratulated on its enterprise in putting on these films. I hope that other suburban theatres will follow suit and give more people who appre-ciate good films rather than spectacle an opportunity to see them.

All sorts of queer bods are rushing round this place with an air of urgency. It seems that Capping Week is getting close. By devious

means I came by a script for this year's Revue entitled, "Seize Me, Caeser," or "No Place Like Rome," by that eminent author of several past Revues, Mr. Charles Zambuka. This script is well up to the standard of his previous shows and all you students should endeavour to get into it or, at the least, go and see it.

The Executive room is cluttered up with paint and other implements, by which I infer that the Procesh controller is getting cracking. If you can't spare the time to be in the show you can at least build a float and go mad on Procesh day.

GRAD. BALL

Be prepared! Grad Ball is nearing and will burst into brief but flamboyant life on May 8th. Performing in person will be the Governor-General and his Lady, Mate Frankovich, Chairman of Social Committee is tossing gay abandon in all directions, and intends this to be the Grad Ball to finish all Grad Balls. Leave your leching alone for a couple of weeks and save the entrance money. Watch "Craccum" and notice-boards for further alarming information.

"We are all Amateur Fools"

by Rev. James G. Matheson

It belongs to the very idea of a University that it is a place in which we are not only looking for information and knowledge in our particular branches of study; we are also looking for wisdom, which serves us, not only in our special profession, but in the whole business of living. whole business of living.

How the Bible makes the point with great insistence, that the e man is not one who is cleverer than other people, or more ned. He is one, who, because he believes in God, has special ght into life. That is the point of the stories about Daniel. He ed again and again the problems that puzzled the most learned in Persia because his faith in God gave him light on them wise man is not one who is cleverer than other people, or more learned. He is one, who, because he believes in God, has special insight into life. That is the point of the stories about Daniel. He solved again and again the problems that puzzled the most learned men in Persia, because his faith in God gave him light on them. Jesus, do you remember, said the same thing, that the true meaning of life is grasped by those who believe—"I thank Thee, O Father, Lord of heaven and earth, that Thou hast hid these things from the wise and prudent, and hast revealed them unto babes."

Dr. Martineau had, as one of his students, a young American, who wanted to eradicate all religion. Dr. Martineau advised him to spend six months with a simple Westphalian family—Roman Catholic peasants— and then six months among some cul-tured and emancipated Germans. After that, he was to come and tell him which group seemed to possess the wisdom of life. The student did the wisdom of life. The student did that, and he confessed to Dr. Mar-tineau that "when face to face with the grim realities of life those clumsy superstitious, narrow Polish peasants possessed a depth of insight, an assurance of action, an at-home-ness of conviction, of a magnificent swift-ness and purity and massiveness. Faced with the same realities, the nimble enlightened materialist students were utterly helpless, without in-sight, action or conviction of any kind." What the Bible means by wisdom is that homely kind which those peasants had, the kind that serves us for every situation in life— not only great occasions. It is the not only great occasions. It is the kind that teaches us how to take success without being ruined by it, and to gain by our failures. It shows us how to bear ourselves towards those who are under our authority, and those above us. It is the homely wisdom that brings healing to our-selves and others. That is what the Bible means when it says that true wisdom is found, not by those who have the best brains or the most massive knowledge, but by those whose insight into life is through their faith in God. Now in this prayer of Daniel, there are two in-gredients of his wisdom that appear quite clearly.

The first is Reverence. Daniel said—"Blessed be the name of God for ever and ever, for wisdom and might are his. And he changeth the times and the seasons; he removeth kings and setteth up kings; he giveth wisdom to the wise, and knowledge to them that know understanding. He revealeth the dark and secret things. He knoweth what is in the darkness, and the light dwelleth with him." That is reverence, the fear of the Lord, which is the beginning of wis-dom. Daniel was wise because he knew how little he knew. He understood that if he were to know any-thing at all, his knowledge must come from God.

In Edinburgh University some years ago, Mr. Alistair Sim, the Scottish actor, was elected Rector. He gave a very remarkable Rectorial address, describing himself as a fool, a professional fool. The theme of his address was that we are all fools, and the wise ones among us are those who know it.

There has been such a vast increase of knowledge in almost every field of study in the last 100 years, that all of us whatever our branch of study, are apt to feel crushed by the sheer weight of information we have to cope with. In this situation there is the danger that we confuse know-ledge with wisdom. T. S. Eliot is one of those who keep reminding us that -they are very different.

"Endless invention, endless experiment Brings knowledge of motion, but not

of stillness, Knowledge of speech, but not of

silence

For wisdom begins with understand-ing how little we know.

Have you ever thought how close humour is to reverence? A fanatic has no humour. He thinks he knows. He cannot laugh at himself. He can-not see how ridiculous it is to imagine that we man can discover the meanhave largely ignored and sometimes over-ridden the traditional forms of ted rights of citizenship in what was a liberal democratic State. "Sailor" that we men can discover the meaning of the darkness that is beyond the light, and that we can tie up tidily in our theories and creeds the mystery of the Universe. A wise man remembers reverently that the greatness and unsearchableness of God are beyond our grasp.

question hardly entered the quarrel at all. When it did, through the Na-It is God who has created life. It is He who knows the beginning of it, and the end, what is beyond the dark-ness of the womb, and the darkness of the grave. When we understand this we realize that our wisdom for franchisement of those voters than living must come from God Himself. to the mannner in which the National-

G

Sincerely, JIM GALE.

basis and activities will be on an individual basis and activities will be graded to suit individual needs and abilities. Classes are entirely voluntary and free. No spectators will be allowed. Classes will begin 10 minutes after the hour and finish 10 minutes before the hour george wishing to leave People wishing to leave the hour. earlier to be in time for classes may do so. Hot showers are provided. No special gym costume is required. Footbare feet or rubber-soled wear shoes.

Dance Classes: Until enough records and the necessary sound equip-ment can be assembled, this part of ment can be assembled, this part of the recreation programme will be in abevance. I becaute abeyance, I hope to start early in the second term.

Please feel free to attend any of these classes at any time. Naturally regular attendance at the classes is desirable, but the most important his time-table will be maintained thing is for you to attend when you at least a fortnight and, possibly, want to. dancing to continue till 3 a.m. at the Graduation Ball. This Ball should be the highlight of a long social career for most students, and to finish any carlier would be a careful for the Bell earlier would be a sacrilege. The Ball is usually a loss financially, and some attempt is being made to keep the loss within bounds by charging a nominal 5/- for a ticket.

The setting up of a N.Z.U. Student Newspaper Association is to be supported by the A.U.C. delegates to N.Z.U.S.A. This organisation will facilitate the exchange of articles and other literary efforts between the colleges. We will then be able to print copy from the other papers legally

The refusal of our executive to support a Tournament Committee motion: "That where a swimming Blue rests solely on performances in water polo or diving, a separate Blue be granted as a Water Polo Blue or a Diving Blue" is incomprehensible.

At a recent Executive meeting I The idea originally came from the was delighted to see that the Col-Swimming Council, who should know lege Council is to be asked to allow what the competitors themselves dancing to continue till 3 a.m. at the think about the matter. After all to think about the matter. think about the matter. After all to give the same Blue for swimming and water polo is like giving a rugby winger an athletics blue on the grounds that he has to run before he can be a winger. It is to be hoped that the other colleges are not so short-sighted over this matter. Some attempt is being made to secure accommodation for clubs and committees. "Craccum" at the mom-ent has great difficulty in finding any-

committees. "Craccum" at the mom-ent has great difficulty in finding any-thing once it has been put down in overcrowded Executive room. the To produce an efficient paper some stor-age space and plenty of room to work is essential.

By the way, another essential is a staff! We have room for people in all sorts of positions, from sub-eds. to

Contributions are solicited ofr the Students' Annual Magazine, "Kiwi." Prose, poetry, paintings, photos, etc., are needed. Release your libidos in print! If you haven't got your name in the telephone dimension bishes in the telephone directory aim higher and get it in "Kiwi." Contributors to and get it in "Kiwi." Contributors to earlier "Kiwis" have left their mark on the walls of every public conve-nience in Auckland. Copy must be typed, if not legibly written, double spaced, on one side of the paper only. Be devils. Drop copy in the "Crac-cum" box, Exec. room, or send it Chairman Publications, Exec. room.

charts, maps and publications. Any and all books in print can be obtained, and our full indent discount given.

Education House, 81 Arney Road. AUCKLAND, S.E.2

Peace River, C. Bagwell, a Fullbright from California, Stan Brown, the physical education officer, B. Smart, a six foot six forward from Canter-bury, and J. Robinson, from O.U. There still remains the old disadvantage of being able to enter only two teams.

The greatest advantage this year The greatest advantage this year is the keenness of the players both in regard to the local competition and the Tournament which will be held here this year. Prospects appear very good for both, perhaps more so for the local competition if rumours of the strength of other colleges are to be believed

RUGBY Last year's champions much the same fifteen with the not-

able exceptions of Murray Tanner (brother of John) at full-back, and Sam Kurtovich, veteran hooker, who have retired. The backline will again include the Auckland reps., John Tanner, Robin Harris, Dave Reeves, and Stevenson—these should form the *Publishers' Representatives and* nucleus of the usual brilliant-type Varsity back-line together with Barter, Bayliss and a new fullback, likely to be either Ernie Arlidge ar Avan Carpenter, both former Auckland

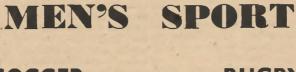

will field

junior reps. The forwards also appear likely to The forwards also appear likely to weld into at least as powerful a unit as last season's eight. The return of J. B. S. Hutchinson from the crack V.U.C. team, together with the ac-quisition of former Otago rep. and All Black trialist, D. J. Reisterer, should improve the mobility of the pack considerably. Other forwards still available include staunch skippack considerably. Other forwards still available include staunch skip-per of several seasons, Bryce Rope, who with Reisterer, Fred Lang, Brett Penman and Andy Miller, will com-pact for aide and heat new pacificapete for side and back-row positions. Last season's locks, Doug. Bryson and Bob Wall, and front-row prop, Merv. Main, are on hand again. The lack of a seasoned hooker might yet prove a handicap, but on paper at least the team appears quite as formidable as last year's and retention of the championship well within their capabilities.

Men's Basketball

The beginning of the season has brought to light some considerable talent. Besides veterans E. Arlidge, R. Waite, M. Mawson, J. Mercep, T. McLisky and last year's newcomers D. Hunt, whom we congratulate on gaining representative honours, J. D. Hunt, whom we congratulate on The club posts notices of practices gaining representative honours, J. and games on its notice board oppo-Gan, I. Corkill, etc., there are several site the cafeteria. New members are new players of high calibre. They in-welcome whether they have had any comparison of the constant of the strength of other conteges are to be believed. clude J. McCormack, a Canadian from experience or not.

The light he d. Christ an Here is a summary of the activity. He thats offered in each class:— valk in Keep Fit: Graduated exercises, light of diffices, apparatus work. mean by Gymnastics: Tumbling, vaulting, the light paratus work. re. With the rosy prospect of Winter Tournament in Auckland this year, the Soccer Club has a strong incen-tive to intensify its activities, and prepare to show our guests Soccer as it should be played. We have an excellent record (playing) at Tourexcellent record (playing) at Tour-nament, and will be all out to restore our newly-lost supremacy this year. Consequently, we wish to spread the word around that the Soccer Club would like, and intends to have, new members—playing or non-play-ing, fit or unfit, experienced or in-experienced, male or female, financial or otherwise, supporters and those in need of support need of support, and especially the many loud-mouthed individuals who grace our corridors and seek an outlet for the repression of emotions that the week's grind imposes on one. To run up and down the sideline, madly waving a blue and white flag, scarf, or sock, and vociferating and gesti-culating furiously is as high an ambition as such aforementiontd individuals can hope to find. The Soccer Club thus offers the community a valuable social service in keeping such types out of less desirable places on Saturday afternoons, and in sub-limating their energies into more useful channels.

The club enters teams in the 2nd and 3rd grades of the A.F.A. compe-titions, and will enter more if num-bers warrant it. Presidents and vicepresidents, coaches and uncoached footballers and orange-peelers, and footballers and orange-peelers, and most of all—Freshers—in any shape or form will be warmly welcomed. Intensive training, good football, healthy comradeship, assistance for beginners, and an opportunity to rep-resent your College on the playing fields of Auckland and in Winter Tournament, is promised to those who will contact the Secretary. W B. will contact the Secretary, W. B. Elley, (85-982, or 20 Springfield Rd., Grey Lynn), or any other officials of the club, at their first opportunity.

Thursday, April 23rd, 1953

More From Congress Curious Cove Resolutions

1. That Congress protests against the drastic restrictions recently imposed on the importation of books into New Zealand (60% cut on 1950). We are of the opinion that the effect of this policy is to place restrictions on knowledge and that it is unjustifiable at the present time. We urge N.Z.U.S.A. to approach the Government with a view to a removal of the restrictions and to seek the support of the Senate of the University of New Zealand herein.

(This Resolution was carried with a close knowledge of the book trade had pointed out what the effect of the restrictions would be on our book needs. Dealers will feel obliged to buy only books which are assured of a ready sale rather than the works likely to be of use to members of the University. Pressure brought to bear on the Australian Government by University authorities resulted in the revision of similar restrictions there).

2. That members of this Congress regard freedom of speech for their re-ligious and political opponents as being as important as freedom of speech for themselves.

(This resolution takes on special significance at present when free-dom of speech is threatened in our society and even in the University. It is noteworthy that its prime mover was Rev. G. E. Hughes, occupant of the Chair of Philosophy of Victoria University College. It also was passed unanimously).

That this Congress urge N.Z.-U.S.A. Committee on Bursaries to press for immediate implementation of an improved and increased bursary scheme.

(This is an old demand which needs to be reviewed. The Govern-ment is not likely to be helpful in the matter and a most vigorous student policy will be needed to solve any-thing. We ask our own delegates to N.Z.U.S.A. to take special note of the first resolution) the first resolution).

4. That we students of N.Z.U.S.A. Congress strongly condemn the action of the N.Z. delegation at the United Nations in abstaining from voting on the question of the apar-theid policy of the Malan Govern-ment, of which policy we strongly disapprove.

(Comment is hardly called for. By abstaining we turn our back on what we know to be injustice for the sake of political expediency. Such an atti-tude effectively helps to wreck even further the structure of the United Nations).

5. We students of N.Z.U.S.A. Con-gress, 1953, urge that our Govern-ment recognise the Central People's Government of the Republic of China as the legitimate Government of China and support its admission to the United Nations as the representative of China.

(This resolution is a common sense one. Whether we like it or not, China is ruled entirely by the Central People's Government and if we want peace we must be prepared to deal with that Government which very evidently has the support of the vast majority of the Chinese people).

6. That in view of the conflicting evidence on conditions inside the Soviet Union, China and associated countries as exemplified by reports of observers such as Messrs. Garland and Courtney Archer and those of the daily press, this Congress believing that accurate information concerning these countries can be a strong contributing factor to world peace, recommends N.Z.U.S.A. to investigate the possibilities of organising a group or delegation representative of the students within the four constituent colleges and the two agricultural colleges to visit and report on conditions there and that the

We hope that N.Z.U.S.A. will at least give this proposal serious consideration).

7. We urge that our Government support an immediate resumption of the Panmunjon Peace Talks and call for an immediate cease-fire.

(In brief this merely means stop e slaughter and then talk about peace terms, the exchange of prison-ers, etc., something which the United Nations have so far refused to agree to)

Other resolutions that were passed:

8. Urged move support for the scheme at Witwatersrand University, South Africa, to enable Negro stud-ents to study medicine. Congress set an example by taking up a collection for the appeal on the spot and collecting over £40.

able to.

11. Showed concern at reports of **EXECUTIVE** countries and affirmed opposition to **L** have just be forms of racial and religious

all forms of racial and religious per-secution wherever they may be found. Finally, Congress affirmed its sup-port for that idea that a New Zealand University Students' Newspaper Association be formed to facilitate the sharing of news between constitu-ent colleges and to improve all college iournalism journalism.

The Labour Party

CRACCUM

Mr. Christie, the leader of the Labour them in his organisation, but Party. Malan administration because of its firstly, because it gave the Nat attitude towards the trade unions ists an excuse for dubbing the and also because of its tempering Commando Communist, and see with individual and civil liberty. The because it was splitting the Nationalists believe that the trade ment itself. Now as a close a unions should be directed and con- the United Party outside Parlia trolled by the Government as part of the Torch Commando attacks their apparatus for wielding complete Government for its unconstitu State power. To this end they have methods, but carefully excludes engaged in a policy designed to Europeans from its ranks. In weaken and ultimately divide the this new relationship with the U weaken and ultimately divide the this new relationship with the U trade union movement in the Union of South Africa on racial lines (i.e., ing Sailor Malan into a mere five pu Afrikaner v. English). In addition, head, and the movement has caul Sartr through the Suppression of Commun-ism Act, they have succeeded in re-moving several prominent trade union officials from office. Consequently, Mr. Christie opposed Dr. Malan as vigorously as he would oppose Hitler and for the same reason. But once again the call for racial equality falls port on conditions there and that the possibility of inviting an exchange delegation be investigated. (The resolution speaks for itself. Wigorously as he would oppose Hitler Theoretically few will dispute its rightness, but the practical difficulnot stand for racial equality any more than it does for the removal of the economic colour bar. Indeed, in the past they have strenuously fought for the retention of this ini-cuitous institution. Once print it is quitous institution. Once again it is not aparthied that has aroused the is wrath and indignation of the trade union movement and the parliamentary Labour Party, but rather the Nationalists' blatant and frightening lust for power. Much the same sort of thing that

has been said about Mr. Christie and Mr. Strauss can be said about that "Sailar" Mr. Strauss can be said accession flamboyant character, "Sailor" Malan. This man formed the Torch Commando as a simple and genuine protest against the imposition of Hit-having fought against the Union. Having fought against the Nazis these ex-servicemen have a rooted and natural aversion to living in a South Africa dominated by a group of men who 9. Expressed the acceptance of the principle of one international student organisation and consequent there-upon. 10. Urged an investigation into the results of a Conference on interna-tional student unity held at Bucharest last year. Maurice Kelly, formerly of O.U., was appointed by N.Z.U.S.A. to attend but was unfortunately not able to

TRAINING COLLEGE CORNER

I have just been looking at the con-stitution of the A.T.C. Students' Association. There seems to be quite a stitution discrepancy in the number of members of the executive allotted to Division C. At present one member is allowed for over one hundred and sion C. allowed for over one hundred and fifty students. On a proportional rep-resentation basis they should have two and a-half representatives two and a-half representatives. least two seems necessary.

One should bear in mind that these people are some of the most mature and experienced members of the studand experienced members of the stud-ent body. A little more of their sage counsel on the executive would do quite a lot of good. It does not mat-ter that they are only here for one year as the advantages obtained from them in one year are equal to two years of Division A students. It is to be hered that an emenument to to be hoped that an amendment to the constitution may be moved on this matter during the course of the vear.

TOURNAMENT

Well, the Tournament is over. first time well, the Tournament is over this time to vanquished have returned to the Just as the homes, determined, we hope, to unites us, try again. Our congratulation totality of the A.T.C. the winners, and our company of the A.T.C. the winners, and our comply of t lences to the losers. Win or that unite these Tournaments are great exp feetly imbe ence and great fun.

REFUNDS

The delay of the Education D it could in paying refunds for travelling ble; that is penses incurred over two months peoples liv is to be deplored. It is to be he regimes, in is to be deplored. It is to be he regimes, in that payment can be speeded up section expenses as well. Many st ents find the expenditure on the ling leaves them financially in their part, to doldrums and prompt payment we that they we be appreciated.
